

International Symposium on Plasmid Biology

7–11 September 2026 in Berlin, Germany

Plasmids in bacterial success and adaptation to changing environmental conditions – ONE HEALTH perspective

Registration Open – Join the Plasmid Biology Community

We warmly invite you to join the International Symposium on Plasmid Biology in Berlin this September.

In addition to the core themes of replication, maintenance and transfer, the 2026 symposium will focus strongly on plasmid-mediated dissemination of antibiotic resistance genes and their importance for the connectivity between Human, Animal and Environment within a ONE Health framework.

Early bird deadline: 26 June 2026

Present Your Research

We invite researchers from all areas of plasmid biology to submit abstracts and contribute to a vibrant scientific programme. This is your opportunity to share novel findings, spark discussions, and engage with an international community of experts.

Main topics include:

Maintenance and replication of plasmids | Evolution of plasmids and their functions | Sequence-based plasmid taxonomy and databases | Conjugation, mobilization and other mechanisms of plasmid dissemination | Plasmid-based technologies | Plasmid-mediated dissemination of antibiotic resistance and other selective traits | ONE Health antimicrobial resistance

Submit your abstract by 24 April 2026

FEMS Grants for Early Career Scientists

This meeting has been selected by the Federation of European Microbiological Societies to offer participation grants for Early Career Scientists who are presenting authors.

- **Abstract submission deadline: 24 April 2026**
- **Grant application deadline: 26 June 2026**
